Physics, Technology
Spanish

Q5 - What were the strengths of your teacher education program?

Knowledgeable professors and advisors
Diversity and exclusivity.
The Music Education program did a fantastic job in preparing me with in depth knowledge of my content ar well as strategies to make my content relevant to my students.
I think the Professors from the Education Department were phenomenal. They were responsive, understoo where education was going, and were well versed on instructional strategies and how to appropriately use Blackboard.
The TIP program that is available to students was an amazing resource and experience connected to the p My teachers were also great at teaching you how to utilize what you have in a classroom and use differenti in everything you do.
Can go at your own pace on a weekly basis. always helpful professors!
Great clinical 2 placement. Was completed virtually. Cooperating teacher was excellent.
- Supportive faculty- Open dialogue and discussion of students currently working in educa- Chance to work with an class and accountability aspect of being responsible to teach students in clinical practice

Q7 - Other comments:

Did not get to prepare and teach for multiple grade levels in one day due to edTPA.
My main critique was that the virtual environment was not effective in preparing me during my clinical pract work with students for my current position.
The education theorists discussed were primarily male, American or European, and white.
